8,000+ Collision Repair Parts

Standard's new Collision Repair Program includes more than 8,000 of the hard-to-find, yet easily damaged parts that collision shops and repair facilities are looking for, including more than 750 ADAS components.

What's inside the Standard® box... innovative design, advanced engineering and over 100 years of experience. What's in your box?

Today's collision repair parts don't just have to fit, they have to function correctly with electronic vehicle safety systems. Precision manufacturing, validation and on-vehicle testing make Standard® the right choice when you want to correctly restore the performance of a vehicle's electronic safety systems.

Engineered to meet or exceed the damaged part they are replacing for fit, form and function

8,000+
COLLISION PARTS

More than 8,000 replacement parts available to restore vehicle performance and electronic safety systems

750+
ADAS COMPONENTS

Aftermarket-leading 750+ ADAS (Advance Driver Assistance Systems) numbers in six key categories

THE STANDARD® COLLISION REPAIR PROGRAM INCLUDES:
